

Keep Your Company On The Road

ABOUT R2MS™

R2MS™ is the market leading AARTO software management system, combining and simplifying all AARTO related processes and compliance requirements into a feature-rich but easy-to-use management tool.

R2MS™ dramatically reduces the time and resources required to meet the challenging demands of the AARTO legislation while also allowing clients to manage existing Road Traffic Act (RTA) fines. R2MS™ is user-friendly, easily implemented and provides all of the tools needed to manage AARTO compliance in an intuitive and systematic way while simultaneously enabling users to predict the potential financial and demerit impact existing RTA fines would have under the impending AARTO system. With R2MS™, data relating to drivers, operator cards or your company as a whole is readily available for authorised users anywhere within your organisation. With its flexibility, you get the reports, scorecards and risk management dashboards you need to make informed decisions, manage risk and reduce cost within your organisation.

No organisation is too big or too small to benefit from the comprehensive R2MS™ AARTO management software solution.

KEY FEATURES

- Single, consistent and transparent AARTO management system;
- A centralised risk-based view across regions, depots or entities;
- User-friendly wizards guide you through every phase of AARTO compliance management;
- Manage RTA fines and predict the impact that RTA offenses will have under AARTO;
- Optical Character Recognition for all AARTO forms received;
- Automatic generation of all AARTO forms required for submission and compliance;
- Configurable Email or SMS notifications and alerts;
- Easily track, report and manage driver and operator infringements and demerit points; and,
- Manage PRDP's, trip inspections, driver medicals, vehicle licenses and roadworthy certificates.

DESIGNED AND DEVELOPED TO MEET ALL THE REQUIREMENTS OF AARTO

The Administrative Adjudication of Road Traffic Offences (AARTO) Act, approved by Parliament in 1998 and scheduled to come into force in 2011, was created to forge a closer and more effective link between enforcement and the adjudication of traffic violations.

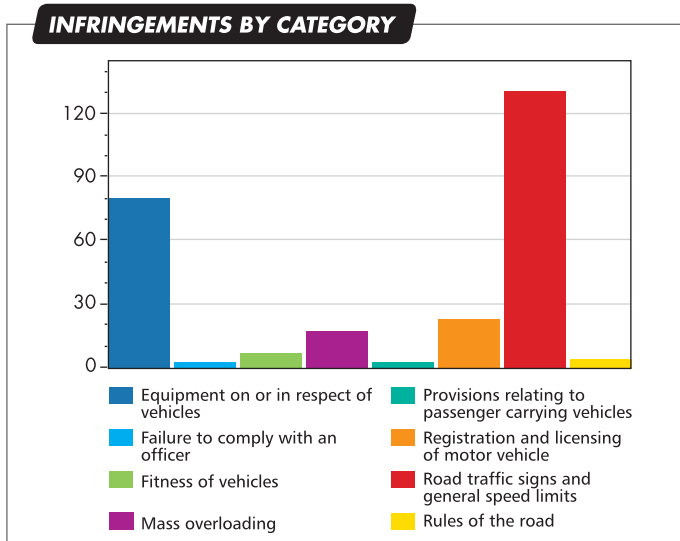

R2MS™ BENEFITS

- Keep your company, its drivers and vehicles on the road!
- Significantly reduce your AARTO compliance risks and the costs of fines, penalties and downtime;
- Manage RTA fines and predict the impact that RTA offenses will have under AARTO;
- Streamline the entire AARTO compliance management process;
- Improve resource efficiency and corporate oversight of your AARTO liabilities and responsibilities;
- Make informed decisions using up-to-date information about drivers, vehicles, demerits and your AARTO liabilities; and,
- Protect brand value and reputation.

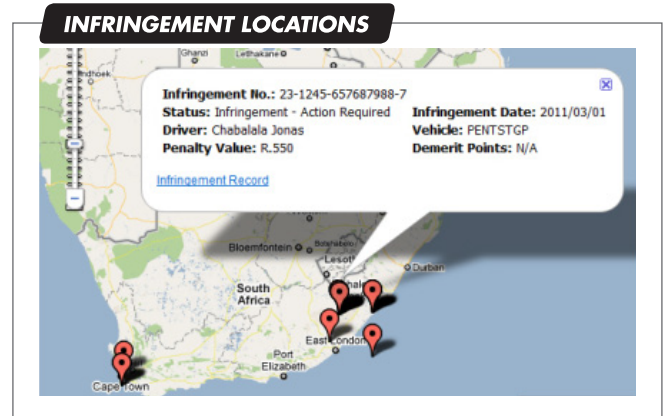

The objectives of AARTO are, amongst others:

EXAMPLE OF ACTUAL STATISTICS PROVIDED BY SOFTWARE

- to encourage the payment of penalties imposed for infringements;
- to establish a procedure for the effective and expeditious adjudication of infringements;
- to encourage compliance with the national and provincial laws;
- to alleviate the burden on courts; and,
- to penalise drivers and operators who are guilty of infringements or offences through the imposition of demerit points leading to the suspension and cancellation of driving licences, professional driving permits or operator cards.

ARE YOU READY FOR AARTO?

- Can you quickly, easily and cost effectively manage driver and operator card demerits, infringements, courtesy letters and enforcement orders?
- Can you be sure you are managing AARTO compliance as efficiently and cost effectively as possible?
- Are you aware of the duties and liabilities as a driver, operator, and vehicle owner?

Let R2MS™ manage your entire AARTO compliance process for you from beginning to end. With R2MS you can: easily and efficiently take control of the entire AARTO compliance management process; reduce the resources required to manage your AARTO compliance requirements; minimise the cost of fines, penalties and liabilities; and be sure you will never miss an AARTO deadline while simultaneously ensuring your drivers and vehicles stay on the road!
