R2MS

TAKE CONTROL | AARTO MANAGEMENT SYSTEM

NOW WITH eNaTIS INTEGRATION!

Keep Your Company On The Road

ABOUT R2MS

R2MS is a market leading and web based AARTO software system for the management of all AARTO compliance requirements.
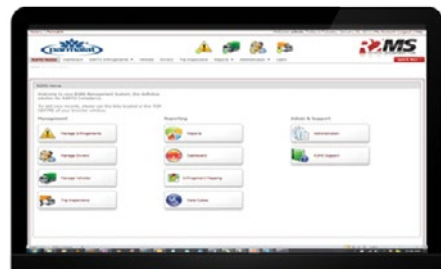

Now with eNaTIS integration, R2MS provides real time visibility of all your fleet's fines and infringements, allows for online and instant driver nomination and provides all you need to ensure full AARTO compliance.

With eNaTIS integration, R2MS provides real time information on infringements across your drivers, vehicles and entire fleet and allows for easy, instant and online driver nominations. R2MS dramatically reduces the time and resources required to meet the challenging demands of AARTO compliance. R2MS is user-friendly, easily implemented and provides all of the tools needed to manage AARTO compliance in an intuitive and systematic way.

With R2MS, data relating to drivers, operator cards or your company as a whole is readily available across your organization. With R2MS, you get the reports, scorecards and risk management dashboards you need to ensure AARTO compliance, reduce the time and cost of AARTO infringement management and ensure your fleet remains insured and on the road!

KEY FEATURES

- Web based AARTO software management system;

- eNaTIS integration for real time fine and infringement data and online nominations;

- Dashboard reporting of all vehicles, drivers and fleet fines and infringements;

- Step-by-step tools to guide you through every phase of AARTO compliance;

- Automatic generation of AARTO forms required for submission and compliance;

- Configurable email and SMS notifications and alerts;

- Track, report and manage driver and operator fines, infringements and demerit points; and,

- Manage PRDPs, driver medicals, vehicle licenses and roadworthy certificates.

- Real time visibility of your vehicle, driver and fleet fines and infringements;
- Online integration with eNaTIS for up-to-date infringement data and driver nominations;
- Significantly reduce the time and cost of AARTO infringement management;
- Reduce your AARTO compliance risks and the costs of fines, penalties and downtime;
- Streamline the entire AARTO compliance management process;
- Improve efficiency and corporate oversight of your AARTO liabilities and responsibilities;
- Make informed decisions using up-to-date information about drivers, vehicles, demerits and your AARTO liabilities; and,
- Protect brand value and reputation.
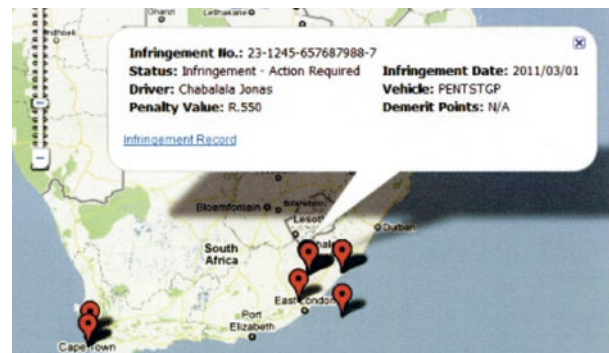

INFRINGEMENT NOTICE PROCESS

Objectives of AARTO:

- Improve road safety across the country;
- Encourage the payment of penalties imposed for infringements;
- Establish a procedure for the effective and expeditious adjudication of infringements;
- Encourage compliance with the national and provincial laws;
- Alleviate the burden on courts; and,
- Penalize drivers and operators who are guilty of infringements or offences through the imposition of demerit points leading to the suspension and cancellation of driving licenses, professional driving permits or operator cards.
